

# Kofax Capture Configuration Guide Version 9

**Client System Requirements** This section lists the requirements for installing Kofax Capture on a client workstation (as part of a client/server installation).

<b>Minimum Hardware Requirements</b> The following lists the minimum hardware requirements for the Kofax Capture client system:	<ul style="list-style-type: none"><li>• Processor: Pentium 4 class processor, or equivalent</li><li>• System memory: 512 Mbytes of memory or more</li><li>• Disk space: 680 Mbytes on any local drive, plus 300 Mbytes available on your local C drive or wherever your operating system is installed, for installation files, temporary files, and working space during processing</li><li>• Display: 1024 x 768 display with 16-bit color, small fonts</li><li>• USB Port: Enhanced Bar Code Engine hardware key (optional)</li><li>• Printer: 600 DPI to support the Separator Sheet Utility (optional)</li><li>• NIC: 100 Mbps</li></ul>														
<b>Recommended Hardware Requirements</b> The following lists the recommended hardware requirements for the Kofax Capture client system:	<ul style="list-style-type: none"><li>• Processor: Pentium 4 class processor</li><li>• System memory: 1 Gbyte of memory or more</li><li>• Disk space: 680 Mbytes on any local drive, plus 300 Mbytes available on your local C drive or wherever your operating system is installed, for installation files, temporary files, and working space during processing</li><li>• Display: 1024 x 768 with 24 bit color, small fonts; 24 bit color is recommended for best viewing of online help</li><li>• USB Port: Enhanced Bar Code Engine hardware key (optional)</li><li>• Printer: 600 DPI to support the Separator Sheet Utility (optional)</li><li>• NIC: 100 Mbps</li></ul>														
<b>Certified Operating Systems</b> The following operating systems have been certified for the Kofax Capture client system:	<ul style="list-style-type: none"><li>• Windows XP Professional with Service Pack 3</li><li>• Windows Server 2008 Enterprise Edition with Service Pack 2</li><li>• Windows Server Enterprise x64 Edition (64-Bit) with Service Pack 2</li><li>• Windows Vista Business Edition with Service Pack 2</li></ul>														
<b>Scanner Support</b>	Böwe Bell+Howell, Canon, Fujitsu, HP, Kodak, Panasonic, Ricoh, Visioneer and Xerox Visit <a href="http://www.kofax.com">www.kofax.com</a> for a complete listing of supported scanner models.														
<b>Image Format Support</b>	<table border="0"><thead><tr><th><i>Import:</i></th><th><i>Export:</i></th></tr></thead><tbody><tr><td>• TIFF (Group 3 and 4, Single and Multipage)</td><td>• TIFF (Single and Multipage)</td></tr><tr><td>• BMP</td><td>• PDF</td></tr><tr><td>• PCX</td><td>• PCX</td></tr><tr><td>• JPG</td><td>• JPG</td></tr><tr><td>• CALS</td><td></td></tr><tr><td>• PDF</td><td></td></tr></tbody></table>	<i>Import:</i>	<i>Export:</i>	• TIFF (Group 3 and 4, Single and Multipage)	• TIFF (Single and Multipage)	• BMP	• PDF	• PCX	• PCX	• JPG	• JPG	• CALS		• PDF	
<i>Import:</i>	<i>Export:</i>														
• TIFF (Group 3 and 4, Single and Multipage)	• TIFF (Single and Multipage)														
• BMP	• PDF														
• PCX	• PCX														
• JPG	• JPG														
• CALS															
• PDF															
<b>Non-Image Format Support</b>	Microsoft Office and all other standard file formats can be imported, viewed, indexed and released.														
<b>Back-end Support</b> Custom release scripts can be written to provide broader support.	<table border="0"><thead><tr><th><i>Database:</i></th><th><i>Workflow and Content Management:</i></th></tr></thead><tbody><tr><td>• SQL Server</td><td>Visit <a href="http://www.kofax.com">www.kofax.com</a> for a list of supported back-end systems</td></tr><tr><td>• Any ODBC-compliant database</td><td></td></tr><tr><td>• Delimited ASCII</td><td></td></tr><tr><td>• Microsoft Access 2000</td><td></td></tr><tr><td>• Oracle</td><td></td></tr><tr><td>• IBM DB2</td><td></td></tr></tbody></table>	<i>Database:</i>	<i>Workflow and Content Management:</i>	• SQL Server	Visit <a href="http://www.kofax.com">www.kofax.com</a> for a list of supported back-end systems	• Any ODBC-compliant database		• Delimited ASCII		• Microsoft Access 2000		• Oracle		• IBM DB2	
<i>Database:</i>	<i>Workflow and Content Management:</i>														
• SQL Server	Visit <a href="http://www.kofax.com">www.kofax.com</a> for a list of supported back-end systems

• Oracle															
• IBM DB2															

# Kofax Capture Configuration Guide Version 9

**Client System Requirements (continued)** This section lists the requirements for installing Kofax Capture on a client workstation (as part of a client/server installation).

---

<b>Customization Support</b> Kofax Capture supports the following development languages:	<i>For export and import connectors, custom modules, and OCX panels:</i>	<i>For validation and recognition scripts:</i>
	<ul style="list-style-type: none"><li>• Visual Basic .NET version 2005</li><li>• Visual Basic .NET version 2008</li><li>• Visual C# .NET version 2005</li><li>• Visual C# .NET version 2008</li></ul>	<ul style="list-style-type: none"><li>• Softbridge Basic Language (SBL) 5.3 provided with Kofax Capture</li><li>• Visual Basic .NET version 2005</li><li>• Visual Basic .NET version 2008</li></ul>

**Standalone System Requirements** This section lists the requirements for installing Kofax Capture on a standalone workstation.

---

<b>Minimum Hardware Requirements</b> The following lists the minimum hardware requirements for the Kofax Capture standalone systems:	<ul style="list-style-type: none"><li>• Processor: Pentium 4 processor, or equivalent</li><li>• System memory: 512 Mbytes or more</li><li>• Disk space: 760 Mbytes on any local drive, plus 300 Mbytes available on your local C: drive or wherever your operating system is installed, for installation files, temporary files, and working space during processing.</li><li>• Display: 1024 x 768 with 16 bit color, small fonts; 24 bit color is recommended for the best viewing of online Help</li><li>• USB Port: Enhanced Bar Code Engine hardware key (optional)</li><li>• Printer: 600 DPI to support the Separator Sheet Utility (optional)</li></ul>
---	---

---

<b>Recommended Hardware Requirements</b> The following lists the recommended hardware requirements for the Kofax Capture standalone systems:	<ul style="list-style-type: none"><li>• Processor: Pentium 4 processor, or equivalent</li><li>• System memory: 1 Gbyte or more</li><li>• Disk space: 760 Mbytes on any local drive, plus 300 Mbytes available on your local C drive or wherever your operating system is installed, for installation files, temporary files, and working space during processing.</li><li>• Display: 1024 x 768 display with 24 bit color, small fonts; 24 bit color is recommended for the best viewing of online help</li><li>• USB Port: Enhanced Bar Code Engine hardware key (optional)</li><li>• Printer: 600 DPI to support the Separator Sheet Utility (optional)</li></ul>
---	---

---

<b>Certified Operating Systems</b> The following operating systems have been certified for the Kofax Capture standalone workstations:	<ul style="list-style-type: none"><li>• Windows XP Professional with Service Pack 3</li><li>• Windows Server 2008 Enterprise Edition with Service Pack 2</li><li>• Windows Server Enterprise x64 Edition (64-Bit) with Service Pack 2</li><li>• Windows Vista Business Edition with Service Pack 2</li></ul>

# Kofax Capture Configuration Guide Version 9

**Server System Requirements** This section lists the requirements for installing Kofax Capture on a server station. **Note** It is recommended that you use a dedicated server for Kofax Capture.

---

## Minimum Hardware Requirements

The following lists the minimum hardware requirements for the Kofax Capture server:

- Processor: Pentium 4 processor, or equivalent
- System memory: 1 Gbyte or more
- Disk space: 1.3 Gbytes on any local drive, plus 300 Mbytes available on your local C: drive or wherever your operating system is installed, for installation files, temporary files, and working space during processing.  
You may need even more disk space, if you have many image files or a large database.
- Display: 1024 x 768 display with 16 bit color, small fonts; 24 bit color is recommended for the best viewing of online help
- USB Port: Kofax Capture hardware key (only required if installing with the hardware-based licensing option)
- NIC: 100 Mbps

---

## Certified Operating Systems

Kofax has certified the following operating systems for the server files and software:

- Windows 7 Professional
- Windows Server 2003 Enterprise Edition R2 with Service Pack 2
- Windows Server 2008 Enterprise Edition with Service Pack 2
- Windows Server 2008 Enterprise x64 Edition (64-Bit) with Service Pack 2

In general, the Kofax Capture server files and software should be installed on the same computer. However, some existing sites may have legacy issues that require server files to be kept on a computer that is not running any of the Kofax Capture certified operating systems listed above. See Installation Guide, *File Locations*, on page 37 for more information about Kofax Capture server files and server software. Refer to *Appendix B - Setting Up Distributed Server Configurations* on page 171 for more information about installing Kofax Capture server files on a computer that is not running an operating system certified for use with Kofax Capture.

---

## Terminal Servers and Citrix Support

You can operate Kofax Capture via a Terminal Services or Citrix session. Once logged into the Terminal Services or Citrix session, Kofax Capture operates as if it were installed on your local computer. However, you should be aware of station licensing conditions – see Installation Guide.

### Certified

- Citrix XenApp 5

### Supports

- Citrix Presentation Server 4.5, Enterprise Edition

**Note:** Citrix supports all Kofax Capture modules except for the Scan module

---

## VMware Support

Kofax has certified the following VMware products for use with Kofax Capture 9.0

- VMware ESX Server 4.0
- VMware Server 2.0

For more information about running the VMware product in a hyper-threaded environment, please check the VMware Support site.
